In compiling data for this directory, the staff at the Office of The Bronx Borough President relied on three primary sources:

The New York City Employment & Training Coalition (NYCETC). Its online database is available at <http://www.nycetc.org>.

The New York State Workforce Eligible Training Provider List, which is available online at <http://www.workforcenewyork.org/etp/Main.asp>.

The online search engine www.Google.com.

Early in the study, the staff recognized that information on employment training and placement centers is dispersed and outdated. As a result, this directory is an attempt to list in one booklet the most comprehensive and updated listing of employment centers providing training and services to Bronx residents. The staff hopes that this directory will serve as an impetus for future collaborations among community constituencies on employment services.
