

The Distribution of Permanent Housing with Supportive Services Throughout the Bronx

Office of the Bronx Borough President Ruben Diaz Jr.

September 2014

Supported Housing Database

- The Supported Housing Database documents permanent residential developments with supportive services throughout the Bronx
- The information is useful in:
 - Assessing the distribution of Housing with Supportive Services in each community district
 - Providing an understanding of what populations are being served throughout the borough
 - Assisting in the analysis of the siting of new facilities

The Significance of Supported Housing

- According to the Supportive Housing Network of New York (SHNNY), Supportive Housing provides:
 - the most successful and cost-effective way to reduce homelessness
 - superior alternative to institutional facilities that targeted populations cycle through
- Supportive Housing strives to improve communities through the rehabilitation/new construction of buildings and the harmonious integration of its residents into the community
- There is also housing with Supportive Services, the majority of which is senior housing

Groups Served by Supported Housing

- The diverse population served by these residences includes:
 - People with a history of mental illness
 - People with histories of drug abuse
 - Seniors and seniors raising grandchildren
 - Young people aging out of foster care
 - Formerly homeless individuals and families
 - People living with HIV/AIDS
 - Low income residents of local communities
 - Veterans
- The residences offer on-site services which vary depending on the needs of the tenants

Categories of housing offered based on Population Served

Many of the residential buildings have a mix of different populations

- Foyer Supportive Housing
- HIV/AIDS Supportive Housing
- Low Income Supportive Housing
- Senior Supportive Housing
- Supportive Housing for the Mentally Ill

Housing Types

- **Foyer Supportive Housing-**
Residences for young people between 18-24 that are aging out of the foster care system and at risk of homelessness.
- **HIV/AIDS Supportive Housing-**
Residential buildings that provide services for individuals that are diagnosed with HIV/AIDS.

Housing Types continued

- **Low-Income Supportive Housing-**
This is intended to provide permanent housing for formerly homeless individuals and families or those at risk of homelessness. All tenants in these buildings must be low-income, and 60% of the units must be reserved for the formerly homeless in New York City's shelter system. This category represents community affordable housing with specific on-site services that include
 - Mental health and Medical Care
 - Vocational and employment services
 - Child care
 - Independent living skills training
 - Substance abuse counseling

Housing Types continued

- **Senior Supportive Housing**-Housing that provides low-income elderly independent living apartment units, often with supportive services.
- **Supportive Housing for the Mentally III**- Residences with individual apartments that provide on-site services to individuals living with mental illness.
